

# Culling & Editing Process

## REQUEST

Let me know how I can help!  
All you have to do is submit a request form, and then I'll reach out to let you know a quote for the project and an estimated turn around time.

STEP  
01

STEP  
02

## DROP

Once we get the nitty gritty out of the way, I'll shoot you a drop box upload link. There, you can drop me your preset, anchor image(s), and all those beautiful photos you took!

.....

## CULL | EDIT

This is where you get back your time, and I get to work. I review and cull all images, mass apply the preset, and then individually hand edit each image to ensure consistency based off anchor image provided.

.....

03

## DELIVERY

Once photos are done, I'll send you a link to your choice of a dropbox or light room cloud folder. There you can download your final images easily.

.....

STEP  
04

## FEEDBACK

I'm a big fan of feedback. My number one goal is to get you flawless edits that compliment your work. After each project I'll request feedback at your convenience.
